## Integrated Sustainability Appraisal

Candidate Site Reference: SR/016/005 Settlement: Burry Port

<p>Q4. Is the site located within a flood risk zone?</p>	<p>Please indicate whether the site is located (wholly or partly) within Zone A, Zone B, Zone C1, and/or Zone C2 of the Development Advice Maps. Additionally, state whether the site is located (wholly or partly) within any layer contained within the Flood Map for Planning. Please provide any additional flood risk assessment and/or related information if already undertaken by alternative site promoters.</p>	<p>ISA4, ISA5</p>	<p>The Site is not at risk of flooding.</p>
<p>Q5. Is the site located within or immediately adjacent to any sites designated for importance to nature conservation?</p>	<p>LDP Constraints Maps: Sites to be identified are:</p> <ul style="list-style-type: none"> <li>• Sites of Special Scientific Interest (SSSI)</li> <li>• Special Areas of Conservation (SAC)</li> <li>• Special Protection Areas (SPA)</li> <li>• National Nature Reserves (NNR)</li> <li>• Local Nature Reserves (LNR)</li> <li>• Common Land or registered village green</li> </ul>	<p>ISA2</p>	<p>No – The site is not located within or immediately adjacent to any site designated for importance to nature conservation.</p>
<p>Q6. Is the site located within or immediately adjacent to any Scheduled Monuments?</p>	<p>LDP Constraints Maps:</p>	<p>ISA8</p>	<p>There are no Scheduled Ancient Monuments located in proximity to the Site.</p>
<p>Q7. Would development of the site be in contrary to general planning principles?</p>	<p>Site Assessment Methodology</p>		<p>As detailed in the accompanying Supporting Report, the Site represents a logical and sympathetic extension to the existing and adjoining built form.</p>

Integrated Sustainability Appraisal

Candidate Site Reference: SR/016/005 Settlement: Burry Port

Q8. Would the development of the site have a detrimental impact on the character and setting of the settlement or its features?	Site Assessment Methodology	ISA8 ISA9	No, the development of the Site would complement the existing spatial pattern of the settlement, preserving the residential character and setting of the locality through retention of perimeter vegetation and landscape features
Q9. Will the proposal involve the re-use of suitable previously developed land and/or buildings?	Site Assessment Methodology	ISA9, ISA7	The Site is greenfield, with no redundant buildings or land.
Q10. Is the site accessible from the existing public highway?			Yes – please see accompanying illustrative site layout for further details.
Q11. Does the site have an available access point with adequate visibility?			Yes – please see accompanying illustrative site layout for further details.

Integrated Sustainability Appraisal

Candidate Site Reference: SR/016/005 Settlement: Burry Port

Q12 Have any significant and evidenced highway issues been identified relating to the site?			Vehicular and pedestrian access to the Site can be easily achieved off the adjoining highway, where visibility standards are in compliance with the Authority's standards.
Q13 Does the site have suitable access to public transport and/or active travel route?	LDP Constraints Maps	ISA3, ISA4, ISA6, ISA12, ISA13, ISA15	The Site lies in proximity to a range of local services and community facilities, as well as a number of well served bus stops. The local road network also provides opportunities for active travel by cycle and walking.
Q14 Does the site have access to green space/leisure/recreational facilities that are within a reasonable distance?	LDP Proposals Maps	ISA12, ISA15	The site is within walking distance of a range of green space, leisure and recreational facilities.
Q15 Is the site within reasonable distance to: (a) Employment provision (b) Retail provision (c) Other services and facilities	Site Assessment Methodology	ISA6, ISA10, ISA14, ISA15	The Site is within walking distance of a number of local employment opportunities and all facilities and services found in proximity to the settlement.
Q16 Is the site within a reasonable distance to education facilities?	Site Assessment Methodology	ISA13	The Site is within walking distance of the local primary school and secondary school.
