Hello

Thank you for your email.

I hope these maps help to identify the area I was referring to between Johnstown and LLanllwch (first map it is highlighted in the thick black and has the hatched pink inside and the second is highlighted in red). Please let me know if you have any trouble identifying it.

Many thanks,

Nerys Andreu.

Good afternoon,

I refer to your representation you have submitted in respect of the Carmarthenshire LDP. In order for us to consider the correct area that you are referring to, would you please identify the parcel of land on a map for us. You have used an old reference number from the previous LDP which the Inspector will not have access to these files.

Kind regards,

The Forward Planning Section

Dear Forward Planning Manager,

I am writing to you with regards to the second deposit Carmarthenshire LDP.

I note the revised plan reduces the number employment areas around Carmarthen, in particular, the site referred to in the attached.

Aside from the fact that when building a large number of domestic dwellings it makes obvious sense to also build facilities for employment, the fact that this area is so conveniently close to such a populated area means it not only has the potential to greatly improve peoples lives in so many ways but also has the incredible benefit of Carbon emissions from travel being greatly reduced. I know that the Welsh government are extremely committed to Carbon reduction.

Please find attached some comments which I absolutely subscribe to and would very much like you to read. Many people have spoken to me about this voicing their concerns, it clearly is causing some strength of feeling.

How can it make sense to force yet more people to commute to Cross Hands, Swansea and Cardiff? We should be focusing on making West Carmarthen an employment hub to sustain local people.

Yours sincerely,

Gerard and Nerys Andreu
