If you want to suggest a new site, please attach a site plan identifying the boundaries of the site you wish to be included in the Plan and provide details of its proposed use. You should consider whether it is necessary for this comments form to be accompanied by a sustainability appraisal. Where proposed changes to a development plan have significant sustainability effects, you will need to provide

the relevant sustainability appraisal information. This information must be consistent with the scope and level of detail of the sustainability appraisal conducted by the Authority. It should also refer to the same baseline information in identifying the likely significant effects of the revised policy or new site.

Dim ond os bydd yr Arolygydd yn eich gwahodd i fynd i'r afael â materion y bydd yn eu codi y byddwch yn gallu cyflwyno rhagor o wybodaeth i'r archwiliad. ### **5. Please set out your comments below.**

Include all the information, evidence and supporting information necessary to support / justify your representation. Please indicate which soundness test(s) the LDP meets or does not meet, and why (see guidance notes for more information). This will help the Authority and the Inspector to understand the issues you raise. You will only be able to submit further information to the examination if the Inspector invites you to address matters that he or she may raise. Please note that the Inspector will not have access to comments you may have made in response to previous consultations.

The promoter operates Beacon Stoves, Capel Iwan with his family and currently lives at Parc Gwair with his parents. Beacon Stoves operates from the adjoining property known as Ty Pren, a purpose built showroom and commercial space and the adjoining storage building and yard. There is a desire for the family to continue to work on site and live on site, but in sperate dwellings. Beacon Stoves is a succesful family run business specialising in the sale and installation of log burners. The business has expaned significantly in recent years going from a total of 4 to 11 employees (including directors).

Capel Iwan is identified as a Tier 3 settlement (with a settlement boundary) and we are currently assessing options for achieving the objective of developing a second dwelling on site. The Deposit LDP2 suggests an overall reduction in the extent of the settlement boundary at Parc Gwair and Ty Pren and therefore the land owners feel it prudent to comment on the Deposit LDP2. The slight adjustment and enlargement of the settlement boundary at the yard area to the south and west of Ty Pren proposed as part of the deposit LDP2 is welcomed, however there are two comments: (see also accompanying plan).

1. The Proposals map for Capel Iwan sees a reduction in land to the south of Parc Gwair. This land could potentially facilitate the development of a dwelling and it's removal from the settlement boundary would potentially prejudice this. It is requested that this land be reinstated.

2. In lieu of the removal of part of the land to the south of Parc Gwair, or in addition to it, it is requested that the settlement boundary to the south of Ty Pren is adjusted to include additional land to facilitate the construction of a dwelling at this location. This addition would appear as a minor and logical rounding off of the settlement boundary. Inclusion of this area of land, identified as Option 1 on the accompanying plan, would be the priority for the proposers. i.e if the LPA consider it prudent to allow only one of the areas subject to this submission, the area south of Ty Pren (option 1 on the accompanying plan) would be the priority.

The retention of the land south of Parc Gwair, and/or minor extension to the settlement boundary to the south of Ty Pren would be minor logical rounding-off of the development pattern that would fit in with the character of the village and landscape in accordance with policy *HM03: Homes in Rural Villages* of the Deposit LDP2. The areas would be unimposing given the immediate character of the area and wider built form of Capel Iwan and a traditional hedgebank and planting could be formed along the southern boundary of the proposed settlement boundary.

The site would be accessed via the existing accesses to the buildings and parking area for Beacon Stoves, and electricity, water and mains foul connection points are adjoining the site. There are no known capacity issues associated with these services and there are no known highways, flooding or archaeological constraints associated with the site. Issues relating to phosphate levels within the Riverine Special Area of Conservation Catchments are acknowledged, but anticipating that these issues are resolved in the short to medium term, the development of the site would be viable and deliverable in the short to medium term. It is anticipated that the development would make a financial contribution towards the provision of affordable housing elsewhere, in line with the LDP policy.

It is anticipated that planning permission would be applied for immediately on adoption of the LDP2 with the dwelling completed within 2-3 years thereafter, subject to resolution of the phosphate issue. In contrast the closest allocation within Capel Iwan (SuV38/h1) Maes Y Bryn for 6 dwellings has a long delivery timescale of 6-10 years.

Inclusion of the land subject to these comments within the settlement boundary would therefore provide the proposer with a dwelling in close proximity to their family and place of work and contribute towards the delivery of housing in the area whilst also respecting the 10% cap within the village set out in policy HOM3. For the reasons set out above, the development would also contribute to the well-being goals set out in the Well-being of Future Generations Wales Act 2015 and the Future Wales: The National Plan 2040.

In light of the above, it is considered that the proposed adjustments to the settlement boundary of Capel Iwan would be minor and logical, enhance the deliverability of housing in an appropriate location and support the LDP's requirements for being deliverable and appropriate. Development of the site would comply with all other policies of the deposit LDP2.

To summarise, the adjustments to the settlement boundary would facilitate the delivery of a dwelling in a sustainable location that would strengthen the viability

and vitality of an existing family run business and therefore can be viewed as an appropriate and acceptable adjustment to the deposit LDP2.

It is also considered that the adjustments would be compatible with the objectives of the Sustainability Appraisal Framework.

*Ar y cam hwn, gallwch wneud sylwadau'n ysgrifenedig yn unig (gelwir y rhain yn 'sylwadau ysgrifenedig'). Fodd bynnag, gall pawb sydd am newid y Cynllun ymddangos gerbron yr Arolygydd a siarad mewn 'sesiwn gwrandawriad' yn ystod yr Archwiliad cyhoeddus. Ond dylech gofio y bydd yr Arolygydd yn rhoi'r un pwys ar eich sylwadau ysgrifenedig ar y ffurflen hon â'r rheiny a wneir ar lafar mewn sesiwn gwrandawriad. At this stage, you can only make comments in writing (these are called 'written representations'). However, everyone that wants to change the Plan can appear before and speak to the Inspector at a 'hearing session' during the public examination. But you should bear in mind that your written comments on this form will be given the same weight by the Inspector as those made verbally at a hearing session. Please also note that the Inspector will determine the most appropriate procedure for accommodating those who want to provide oral evidence.

The Carmarthenshire Revised Local Development Plan (LDP) will be examined by an independent Inspector appointed by the Welsh Government. It is the Inspector's job to consider whether the Plan meets procedural requirements and whether it is sound.

'Sound' may be considered in this context within its ordinary meaning of 'showing good judgement' and 'able to be trusted'. The questions or 'tests' which the Inspector will consider in deciding whether the Plan is sound are:

1. Does the plan fit? (i.e. is it consistent with other plans?)
2. Is the plan appropriate? (i.e. is it appropriate for the area in the light of the evidence?)
3. Will the plan deliver? (i.e. is it likely to be effective?)

More information on the soundness tests and procedural requirements is provided in the Planning Inspectorate's LDP Examinations Procedural Guidance.

If you are making an objection, you should say why you think the Plan is unsound and how the Plan should be changed to make it sound.

Where you propose a change to the Plan it would be helpful to make clear which test(s) of soundness you believe the Plan fails. If your comment relates to the way in which the Plan has been prepared or consulted on, it is likely that your comments will relate to 'procedural requirements'.

Failing to identify a test will not mean that your comments will not be considered, providing it relates to the

Plan or its supporting documents. You should include all your comments on the form, using accompanying documents and supporting evidence where necessary.

If you seek more than one change to the Plan, it is not always necessary to complete separate forms for each part of your representation. It may, however, be helpful to use two separate forms if you wish to speak at a hearing about some objections but not others.

Where a group shares a common view on how it wishes the Plan to be changed, it would be helpful for that group to send a single form with their comments, rather than for a large number of individuals to send in separate forms repeating the same point. In such cases the group should indicate how many people it is representing and how the representation has been authorised. The group's representative (or chief petitioner) should be clearly identified.
